Inside Parkview Pediatric Dentistry

Parkview
Pediatric Dentistry

Hello there! Welcome to Parkview Pediatric Dentistry!

Today I am going to the dentist's
office so I can get my teeth checked

I will say hi to the receptionist so she can
get me checked in

I will wait in the
waiting room until
my name is called

The dental assistant
will help me walk
down the hallway to
the picture room

The assistant will use
camera helpers that
go inside of my mouth,
this is okay!

The dental
assistant will use a
special camera to
take pictures of my
teeth.

Next, I will lay down on a special chair
and watch a movie on the TV.

The hygienist will come and say hi to me.

The hygienist will brush my teeth with a special brush and toothpaste.

Next, the dentist will use some cool tools to check and count my teeth. It's like a fun tooth adventure!

Sometimes, the dentist might use tools that make funny noises. That's okay—it's all part of the fun!

If the noise bothers me, I
can wear my
headphones and enjoy a
fun movie!

Sometimes, the dentist
will squirt water onto my
teeth and uses a tool that
blows air on my teeth.

Sometimes, the dentist
uses a small straw that
will take water out of my
mouth.

I did a great job and now my teeth
are all clean!

Now I get to pick a cool prize for being brave. What an exciting reward!

My dental visit is over, and I did a great job! I feel proud and happy. I can't wait to come back!

Taking care of my teeth is important. I brush and floss every day so my next visit will be just as great!
